DEAR ASIAN YOUTH RECEIVES $250,000 IN GRANT DONATION FROM ZOOM CARES FOUNDATION

November 27, 2022: Dear Asian Youth (DAY) was recently awarded $250,000 of grant funding by the Zoom Cares foundation. Zoom Cares, Zoom’s social impact department, donated $5 million in grants to 20 organizations that are dedicated to combating social inequity, climate disasters, education, or youth mental health. Dear Asian Youth intends to use these funds to help scale our organization’s finances and improve upon the organization. Additionally, the funds will be utilized for long-term projects that combat social inequity, assisting our chapters around the world, and growing the organization’s digital platform.

“Our team is so incredibly honored to receive this grant! As an entirely youth-led organization, we are thankful for Zoom’s investment in the new generation of advocates from around the globe” said Stephanie Hu, Founder and Executive Director at DAY. “We will continue to move our mission forward, and we thank our worldwide audience for their continued support!”

The DAY Team is grateful for the generous donation from Zoom Cares and the support from our audience. Without the unwavering support and dedication to social justice from our audience, DAY would not be able to grow the organization to this level and create a positive impact on the advocacy space. We thank you all for helping us in our mission to to uplift Asian communities through education, activism, and celebration.
